How We Support

- **Company Transformation:** Provide tailored guidance and support to executive teams at portfolio companies, grounded in a strategic plan that's aligned with our investment thesis.
- **Community:** Connect executives across the portfolio and manage communities for leaders to network and crowd-source recommendations. This provides a tremendous network effect with dozens of active businesses, similar in size and business model.
- **Events:** Host opportunities to share insights on topics, including conferences, webinars and roundtables. This includes an in-person technology and product conference, a go-to-market conference and a value creation, strategy and financial operations conference.
- **Proprietary Content:** Create best practice insights, guides, and templates on common growth profit drivers and operational excellence areas that can scale across the portfolio.
- **External Resource Ecosystem:** Source, monitor and refer industry and domain-specific resources for deeper dive projects and execution within the portfolio.
